Dear Colleagues and Guests:

We are excited to invite you and your family to join us on Amelia Island, Florida, for the 38th Annual Meeting of the Mid-America Orthopaedic Association. After taking a year off due to the COVID-19 pandemic, we look forward to getting back together for our annual meeting.

I would like to start by thanking our Program Chair, Nick Noiseux, and the Program Chair from 2020, Justin Siebler, as well as the rest of the Program Committee, for their work in producing what promises to be an excellent meeting. We will continue the tradition of offering instructional course lectures, plenary and breakout sessions, poster sessions, and a symposium. Attendees will have the opportunity to claim up to 18.5 category 1 CME credits.

The meeting starts **Wednesday, September 29, 2021**, with the Pre-Course titled “Why Did This Joint Replacement Not Work Out as It Should Have? Avoiding Problems and Addressing Early Failures in Primary Total Hip and Knee Arthroplasty.” This will qualify the participant for 7.5 category 1 CME credits.

Additionally, I am excited to have some of my mentors and friends serve as our guest speakers:

Presidential Guest Speaker

Kevin Garvin, M.D., Omaha, NE

“Long-Term Results of Two-Stage Revision for Chronic Periprosthetic Hip Infections”

Classics in Orthopaedics Speakers

Dan Berry, M.D., Rochester, MN

“Introduction of New Technology in Orthopedic Surgery: Lessons from Total Joint Arthroplasty”

Lisa Cannada, M.D., Jacksonville, FL

“Investing in our Future: The Art of Mentoring”

Rapp Lecturer

Craig Della Valle, M.D., Chicago, IL

“Outpatient Hip and Knee Replacement”

Steel Lecturer

Hal Kushner, M.D., FACS, Daytona Beach, FL

“Living is the Difficult Thing”

We have arranged the following optional social activities during the meeting:

- MAOA Golf Tournament
- MAOA Tennis Tournament
- Amelia Island River Cruise

You can sign up for the above tournaments and tour when you complete your online meeting registration www.maoa.org.

It has been a unique year for all of us, but I can tell you that I have been honored to serve as the 38th President of Mid-America Orthopaedic Association. My wife, Michelle, and I are looking forward to seeing you all in Florida in September.

Craig Mahoney, M.D.
President, Mid-America Orthopaedic Association

CME Accreditation

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the American Academy of Orthopaedic Surgeons and Mid-America Orthopaedic Association (MAOA).

The American Academy of Orthopaedic Surgeons is accredited by the ACCME to provide continuing medical education for physicians.

The American Academy of Orthopaedic Surgeons designates this MAOA 38th Annual Meeting, September 29 – October 2, 2021, for a maximum of 26* AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

**7.5 AMA PRA Category 1 Credits™ for MAOA Pre-Meeting Course*

**17.5 AMA PRA Category 1 Credits™ for Scientific Program*

**1 AMA PRA Category 1 Credits™ for Scientific Poster Sessions*

Objectives

- Objective 1:** To understand problems and early failures with primary hip and knee arthroplasty
- Objective 2:** To comprehend common hand, wrist, and elbow surgical indications and techniques
- Objective 3:** To understand management of knee meniscus repair and replacement
- Objective 4:** To discuss and learn treatment strategies of periprosthetic femur fractures
- Objective 5:** To learn current concepts of diagnosis of treatment of ankle injuries
- Objective 6:** To comprehend current surgical treatment indications for proximal humerus fractures open reduction and internal fixation
- Objective 7:** To learn the latest treatment modalities for athletes with spine injuries
- Objective 8:** To discuss indications and techniques of surgery for proximal femur fractures
- Objective 9:** To understand the value of and the best up-to-date methods for mentoring
- Objective 10:** To discuss the narcotic/opioid crisis and how to better manage pain in the orthopedic patient
- Objective 11:** To comprehend the diagnostic dilemmas and treatment strategies of athletes' shoulder injuries

The attendee will learn:

- 1. common surgical procedures about the hand, wrist, and elbow that can be performed by the general orthopedic surgeon obviating the need for a referral to a hand surgeon.*
- 2. about decision making and treatment options for distal radius fractures.*
- 3. to differentiate complex and problematic fractures from simple fractures that can be treated with closed reduction or simple internal fixation.*
- 4. about hand masses and which can routinely be treated with marginal excision. The attendee will also learn to recognize suspicious lesions that require special imaging and potential referral to a hand surgeon/surgical oncologist.*

Common hand procedures that can be performed by the general orthopedic surgeon will be discussed. Surgical technique decision making and patient selection will be emphasized.

Kyle R. Duchman, M.D.
Iowa City, IA

Geoffrey S. Baer, M.D.
Madison, WI

Marc Tompkins, M.D.
Minneapolis, MN

Meniscectomy is the most common orthopedic procedure performed in the United States. The sequelae of meniscectomy are well established, and the incidence of osteoarthritis in the population is only growing. The importance and cost effectiveness of meniscus repair has been described in the literature, but still only encompasses about 15% of all meniscus surgeries. This instructional course will evaluate the role of meniscus repair and replacement. Discussion will focus on the following specific points: (1) trends in meniscus repair: key techniques, augmenting meniscus repairs, upcoming basic science, (2) difficult tear patterns: how to approach horizontal cleavage tears, radial tears, and complex tears, (3) the Root Tear Epidemic: who should we fix and how to get the best outcomes, and (4) time to transplant: patient selection and concepts for success.

Everyone knows the Earth is round...or do they? Faculty will discuss why they continue to utilize specific techniques; despite evidence that better alternatives exist.

This Instructional Course will feature techniques that have been successful in the past, as well as examples of personal pitfalls or failures that are commonly encountered when attempting to replicate newer methods. The strength of available data for differing treatment methods, as well as how to personally apply newer literature to individual patient scenarios, will be discussed.

Specific topics will include:

- 1. Intertrochanteric fractures – Do I still need to know how to place a sliding hip screw?*
- 2. Tibial and femoral nailing – Do's and don'ts*
- 3. The syndesmosis – Screws? Suture? Primary ligament repair?*
- 4. Proximal humerus fractures – Is ORIF still indicated in the elderly patient?*

6:30 a.m. - 7:45 a.m. **IC IV – Spinal Surgery in 2021 – You Might Find This Interesting...**

Robert F. McLain, M.D., Moderator
Solon, OH

David B. Bumpass, M.D.
Little Rock, AR

Anthony F. Guanciale, M.D.
Cincinnati, OH

Advances in technology have dramatically changed the care of, and the expectations of, patients with a variety of spinal problems. Our improved ability to effectively intervene in degenerative, traumatic, and systemic conditions, with better outcomes and fewer complications, means that we can aim for long-term functional excellence as opposed to simple salvage in many disorders we used to treat with limited expectations.

So what are some of our most important advances in 2021?

- This Instructional Course will provide a stripped-down and focused current concepts discussion of surgical and interventional care needed to keep the elite athlete in the game, and provide clear guidelines as to when the physician needs to keep them out!*
- We will provide an overview of the most cutting edge approaches to thoracic and thoracolumbar spinal trauma, discussing advances in imaging, surgical technology, and biologics as they apply to modern trauma care.*
- And, we will provide a discussion of the state of the art in disc arthroplasty, and discuss indications and applications of disc replacement surgery as the contemporary solution to an expanding array of cervical and lumbar disorders.*

Why Did This Joint Replacement Not Work Out as it Should Have? Avoiding Problems and Addressing Early Failures in Primary THA/TKA

Pre-meeting course on Wednesday, September 29, 2021

7:30 a.m. - 5:00 p.m.

Course Chair:

Nicolas O. Noiseux, M.D., FRCS(C), M.S.

Iowa City, IA

Learning Objectives:

1. To understand the preoperative and intraoperative factors that impact success in primary THA and TKA.
2. To explore state-of-the-art anesthesia and analgesia protocols for rapid recovery and reducing length of stay in THA/TKA.
3. To review and enhance knowledge regarding unexplained pain, complications, and early failures in total hip replacement.
4. To learn how to approach painful or dissatisfied total knee replacements and create an algorithm for finding possible surgical solutions.
5. To gather expert tips to optimize consistency and success in primary THA and TKA from indication to rehab.
6. To enhance strategies in dealing with soft tissue coverage complications, oncologic diagnoses at the hip and knee, and nerve injuries following THA/TKA.

Pre-Course Topics:

Session I – Preoperative/Intraoperative Factors Impacting Success

- Preoperative optimization
- State-of-the-art anesthesia and analgesia protocols

Session II – Primary THA

- The atypical indication, staying out of trouble
- Early PJI
- Instability and early detection
- Periprosthetic fracture
- Failure of ingrowth/early loosening
- Work-up of the painful THA with no obvious diagnosis
- Rapid Fire THA Topics and Q & A

Session III – Primary TKA

- Work-up of painful TKA
- Postoperative stiffness (arthrofibrosis)
- Instability in TKA
- Early loosening/debonding, cementless failure
- Rapid Fire TKA Topics and Q & A

Session IV – Advanced Topics in Hip and Knee Arthroplasty

- Soft Tissue Deficiency in TKA
- Maybe the Diagnosis isn't OA? When to call the ortho oncologist
- Postoperative nerve injuries

12:00 p.m. - 1:00 p.m. **Industry-Sponsored Luncheon Symposium** (no CME credit offered)

Join us one day prior to the MAOA Annual Meeting for this CME event of faculty presentations followed by discussions.

\$250 for practicing orthopedists

\$150 for residents, fellows, medical students, and allied health.

7.5 Category 1 CME credits will be offered for this one-day course.

Register at www.maoa.org through the main registration link.

Resident Quiz Bowl

Saturday, October 2, 2021

8:30 a.m. - 9:30 a.m.

Back by popular demand! This session will be a fun, interactive hour focusing on important issues in all areas of orthopedics. Format will be similar to a quiz show where orthopedic residents from academic programs in the Mid-America region will compete against one another answering questions from a well-informed moderator! Score will be kept! This will be an educational experience for both participants as well as the audience.

For a complete list of the scientific presentations and posters, please visit the MAOA website (www.maoa.org).

Meeting Registration

Please visit www.maoa.org to register for the meeting and reserve a hotel room. Make plans early to attend a great meeting.

All presenters are required to register and pay a registration fee.

What is Included in Your Registration Fee?

See the MAOA website regarding the separate registration fee for the Wednesday, September 29, 2021, pre-meeting course *“Why Did This Joint Replacement Not Work Out as it Should Have? Avoiding Problems and Addressing Early Failures in Primary THA/TKA”*.

Regular Meeting registration fees include:

Physician Registration

- Continental Breakfast in Exhibit Area on Thursday, Friday, and Saturday
- Coffee Breaks in the Exhibit Area
- Welcome Reception and Buffet Dinner on Wednesday
- Friday Night Dinner
- Meeting Expenses - As with all meetings, your registration fee helps to cover all expenses of the annual meeting, such as name badges, printing, postage, audiovisual equipment, etc.

Spouse/Guest Registration

- Continental Breakfast at the Spouse/Guest Hospitality on Thursday and Friday
- Welcome Reception and Buffet Dinner on Wednesday
- Friday Night Dinner
- Name badge

Controlling Registration Fees

Charges for functions, meeting space, and amenities are ameliorated in direct ratio to the number of rooms booked through the Association's block. Consolidating our reservations helps control registration fees.

The 2021 Meeting Registration Fees are as follows:
