

2022 MAOA Pre-Course

The Shoulder Surgeon's Roadmap: From Arthroscopy to Arthroplasty

Chair: Matthew F. Dilisio, MD, FAOS | Creighton University School of Medicine | Omaha, NE

The Mid-America Orthopaedic Association (MAOA) invites you to join us in San Antonio, TX on April 6, 2022 for our exclusive Pre-Course to the MAOA Annual Conference.

This course will focus on the full spectrum of care for shoulder pathology.

Regional leaders in the field will use a case-based approach starting with the most common issues a shoulder surgeon manages, and advance into more complex and complicated problems. This course will be an excellent review of both the fundamentals and the latest advances in the tools that an orthopedic surgeon uses to manage shoulder-related problems in 2022.

Highlights will include:

- Shoulder Instability: Latarjet or Remplissage?
- Biceps, SLAP Tears, and Cross-Fit
- Rotator Cuff: Pearls to Optimize Healing
- SCR, Tendon Transfer, or Reverse?
- Proximal Humerus Fractures: to Fix or Replace?
- Primary and Revision Shoulder Arthroplasty
- The Expanding Indications of Reverse Shoulder Arthroplasty
- How, Why, and Should I Use Biologics in My Practice
- Practice Management: Challenges in Being a Shoulder Specialist

LA CANTERA RESORT | SAN ANTONIO, TX | APRIL 6, 2022

This CME event will explore various topics and procedures that challenge today's orthopedic surgeons. In addition to didactic lectures, the pre-course offers an engaging luncheon symposium and interactive panel discussions.

We look forward to seeing you in Texas!
